Acknowledgement

We would like to express my special thanks of gratitude to our **course "Professional Practices 2"**faculty **Smt.P.A.Landage**, who gave us this opportunity to do this wonderful project of **Tree Operations in Data Structures using Python"**. And also guide us to make this project more efficient & providing us new ideas to implement them in our Micro Project to make it attractive. I acknowledge the kind of support, efforts and timely guidance provided by our mam. This project report will helps in better understanding of the subject matter. The opportunity to participate in this project has helped us to improve our research skills and we are really grateful of them. Also thanks to our support team members for encouraging and guiding for the better results, without their support we couldn't have completed this project.
